Alumni of the Month

Nida S. Abu Rumman, Director of Security Architecture at Microsoft

I started my journey in the IT sector in Washington DC after I could not find opportunities to leverage my Chemical Engineering Degree. The transition was very easy for me as I had a solid scientific education, an MBA from the American University at Cairo with focus on information technology, and a curious interest in all things information technology. When I moved to the DC area in 1994, I built my career over the years in the IT sector in the United States and became recognized as an instrumental IT leader with known expertise in driving global and national cybersecurity and operational resilience regulatory efforts in the United States. In 2022, I joined Microsoft as the Director of Security Architecture. I lead key aspects of Microsoft security including: Third Party, Artificial Intelligence, and Quantum Security. Prior to joining Microsoft, I served at the Federal Reserve System in various executive leadership roles for about 19 years. [Read More.](#)
